

PortraitPay AI

Business Proposal

Your Face. Your Rights.

Digital Avatar Licensing | Blockchain Evidence | Direct Law Firm Access

The Problem We Solve

Portrait Rights Infringement Is Out of Control

340%

2024: AI-generated infringement cases increased 340% YoY

5 Million +

2025: Top celebrity deepfake fraud exceeded /case

30%

2026: 3 out of 10 influencers will have portrait stolen

No one to turn to. Nothing works. Costs too much.

- Platforms do nothing: Rely on user reports - very inefficient
- Personal rights protection costs start at + for lawyers
- Evidence improperly documented: Screenshots hold weak weight in court

Hollywood in Action: SAG-AFTRA 2024 Strike -> AI must not abuse actors portraits and voices

What Is PortraitPay AI

A Blockchain Platform for Portrait Rights Protection & Licensing

Register & Certify → Blockchain Evidence → Digital Avatar Licensing → Law Firm Services

1

Register & Certify

Upload photo / AI face
comparison / 128-dim vector in
DB / SHA-256 on-chain

2

Blockchain Evidence

IPFS permanent storage /
Base chain timestamp /
Tamper-proof

3

Digital Avatar Licensing

Signature data package /
LibTV/Runway integration /
Auto profit sharing

4

Law Firm Services

Auto infringement detection
/ Law firm takes case /
Platform earns 1%

+Digital Avatar Licensing: Production companies/Brands -> Generate avatars on LibTV/Runway/Midjourney -> Platform verifies signature -> Auto profit sharing

New: Digital Avatar Licensing contract templates (Standard/Exclusive/Endorsement/Film Adaptation), blockchain certificate + lawyer review

How It Works

Three Core Function Modules

1 Portrait Rights Certification

- * Upload portrait
- * AI face comparison
- * 128-dim vector in DB
- * SHA-256 on-chain
- * IPFS permanent storage

2 Digital Avatar Licensing Contract

- * 4 contract templates
- * Lawyer review
- * Blockchain evidence
- * Auto profit sharing
- * Contract PDF download

3 Direct Law Firm Access

- * Application/audit
- * Dashboard
- * Infringement report management
- * Case status tracking
- * Earnings withdrawal

User registers portrait -> Certify -> Sign Digital Avatar Licensing Contract -> Blockchain Evidence -> Platform earns 1% -> Law firm services

Why Now Is the Best Time

AI Video Explosion

2025-2026: Sora/Runway explode, infringement surges

Digital Avatar Demand

Production companies/brands urgently need Digital Avatar Licensing compliant solutions

Supply Gap

No professional Digital Avatar Licensing + blockchain certificate platform exists

Time Window

Only 12-18 months of first-mover advantage

How Large Is the Market

Digital Avatar Licensing - A Coming Trillion-Dollar Market

\$20 Million

Year 1 Target Platform Revenue

50K

Paying Users

/person (Currently Free)

5 Million

Platform earns 1%

2 Million

Enterprise/Celebrity Cert

\$299/year

TAM

Global digital avatar market

\$50B+

SAM

Serviceable addressable market

\$5B

SOM

3-year target

\$100M

Our Advantages

vs All Existing Solutions

Dimension	PortraitPay AI	Other Solutions
Legal Validity	On-chain evidence + 128-dim face vector + law firm endorsement	Screenshots/recordings, weak evidence
Rights Protection Cost	Law firm handles all, zero cost to user	+ lawyer fees
Digital Avatar Licensing	Signature data package, LibTV/Runway integration	No such service
Licensing Revenue Share	Smart contract auto distribution, real-time settlement	No auto distribution
Privacy Protection	IPFS distributed storage, face vector encrypted	Centralized servers
Brand Endorsement	Coinbase endorsed, Base chain	No blockchain support

Digital Avatar Licensing - Core New Feature

Attract Production Companies & Brands to You

Market Demand

- * Directors/production companies want digital avatar IP but don't understand contracts
- * Cross-industry enterprises (brand/education/gaming) need legitimate authorization proof
- * No unified authorization verification standard on LibTV/Runway/ Midjourney
- * High lawyer fees, scattered contract templates, verification difficulties

PortraitPay AI Solution

- * 4 contract templates: Standard/Exclusive/Endorsement/Film Adaptation
- * Blockchain certificate = legally acceptable authorization proof
- * Platform signature data package = verifiable by LibTV/Runway/ Midjourney
- * 1% service fee, lawyer review ensures contract compliance
- * User registers -> Generates authorization data package -> Third-party platform calls

Contract Template Types

Standard License

Social media/Ads/Products

12 Months

Exclusive License

All uses incl. film/gaming/broadcast

24 Months

Endorsement License

Brand endorsement
/Ad filming/Promotional activities

12 Months

Film Adaptation

Film/TV/Web series exclusiv

36 Months

Celebrity Partnership Program

Attract celebrities with Digital Avatar Licensing, attract ordinary users with celebrity endorsement

New Digital Avatar Licensing Path

Celebrity portrait authorization -> Platform generates signature data package -> LibTV/Runway/HeyGen calls -> Production company uses compliantly -> Platform auto-distributes 1%

[OK] Sepolia testnet running stably, Base mainnet ready

[OK] 128-dim face vector storage + SHA-256 hash implemented

Revenue Sources

Free onboarding -> 1% from digital avatar contracts -> Law firm partnership share

0%

Registration Free

Personal/lawyer firm zero-cost onboarding
Platform profits from scale effect

1%

Digital Avatar Licensing Contract

Platform earns 1% per contract
Production companies/brands pay
Auto profit sharing

50%

Personal Certification Annual Fee

\$199 /year (adjusted to
Currently free to expand users)

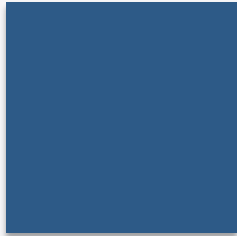

5%

Law Firm Partnership Share

Platform earns 5% after law firm takes case
User starts at zero cost

Core insight: 1% commission on digital avatar contracts is highly competitive - production company pays , platform takes , but provides complete legal protection.

Next Steps

Development Path to 50K Paying Users

Now	Within 30 Days	Within 90 Days	12 Months
Beta Running * Stable product running * Sepolia testnet + Base ready * Lawyer onboarding + dashboard complete * Digital avatar contract system complete	Sign Law Firms + Celebrities * Sign 3-5 law firm partners * Sign first celebrities/talent agencies * Digital avatar contract templates live * LibTV/Runway partnership negotiations	Launch Base Mainnet * Start charging, 1% contract commission * Law firm dashboard officially operational * Digital Avatar Licensing API open * 1,000 paying users	50K Paying Users * \$20M platform revenue * Top agencies onboard * LibTV/Runway partnerships * Become Digital Avatar Licensing standard

FAQ

Q: Does on-chain certificate have legal validity?

A: Yes. IPFS hash + timestamp + 128-dim face vector = notarial effect. Law firm verified it as litigation evidence.

Q: How to verify digital avatar licensing contract authenticity?

A: Each contract has PortraitPay platform signature + blockchain hash. LibTV/Runway can verify signature via public key to confirm authorization source.

Q: Why should production companies use our contracts?

A: Building your own contract + lawyer fees start at . Using our template + blockchain certificate costs +, with law firm endorsement.

Q: Is 1% commission enough to operate?

A: Digital avatar licensing contracts are usually large (-). 1% is enough to cover operating costs.

Q: Why not build your own infringement monitoring?

A: High cost, poor effect, high legal risk. Law firm model is lighter, more effective, and more trustworthy.
